Amendment

Sir:

In response to the Notice of Drawing Inconsistency With Specification mailed October 14, 2005, please amend the above-identified patent application as follows:

In the Specification:

Page 10, line 18, insert - - Fig. 12 is an elevation view from the bottom of a ship showing two propeller assemblies in accordance with this invention mounted below the hull but without the propeller housings to better illustrate the pairs of elongated propellers themselves in their relation to each other. - -

Remarks

The foregoing amendment to page 10 of the Specification which adds reference to and description of Figure 12, removes the inconsistency between the drawings and the specification.

A clean copy of page 10 with the amendment currently added is also submitted with this amendment.

Respectfully submitted
